The First Vice-President of Qatar Chamber, Muhammad bin Ahmed bin Towar Al-Kuwari, discussed with the head of the Moroccan side in the Qatari-Moroccan Joint Business Council, Muhammad Baida, ways to enhance cooperation relations between Qatari and Moroccan companies, investment opportunities available in the two brotherly countries, and the possibility of establishing alliances between companies from both sides.

Al-Kuwari noted the growth of the volume of trade exchange between the two countries in the year 2021 by 130 percent, to reach 754 million dirhams, compared to 330 million dirhams in 2017, considering that despite the rise, it is still below ambitions, expressing his hope to increase trade exchange between the two countries through Cooperation between the Qatari and Moroccan private sector. He pointed out that Morocco is a large and promising market that includes many investment opportunities that attract the interest of Qatari businessmen. He indicated that there are more than 80 Moroccan companies operating in the Qatari market in partnership with Qatari companies in various fields, most notably hospitality, trade, contracting, fashion, beauty and business solutions.

For his part, Baida pointed out that "there are many Moroccan companies that wish to invest in Qatar, which is characterized by an attractive investment climate, and there are many investment opportunities in Qatar that attract the interest of Moroccan companies."

The central bank in Egypt also indicated that the foreign exchange reserves reached $40.98 billion at the end of January, compared to $40.935 billion at the end of December 2021, an increase of about 45 million dollars.

The central bank in Egypt also indicated that the foreign exchange reserves reached $40.98 billion at the end of January, compared to $40.935 billion at the end of December 2021, an increase of about 45 million dollars.

The report noted that the foreign exchange reserves in Egypt reached $40.98 billion at the end of January, compared to $40.935 billion at the end of December 2021, an increase of about 45 million dollars.

The US dollar, the single European currency "Euro", the British pound, the Japanese yen and the Chinese yuan, is a percentage that distributes Egypt's holdings of them on the basis of the exchange rates of those currencies and the extent of their stability in international markets. The main function of the foreign exchange reserve at the Central Bank, with its components of gold and various international currencies, is to provide basic commodities and pay the premiums and interests of foreign debts, and facing economic crises, in exceptional circumstances, with resources from foreign currency-generating sectors, such as exports, tourism and investments, affected by the turmoil.
