Arab-Brazilian Chamber Aims to Promote Exports of Halal Products

The Arab-Brazilian Chamber of Commerce has signed a partnership agreement with the Brazilian Trade and Investment Promotion Agency “Apex-Brasil” to promote the level of Brazil’s exports of halal products to Arab countries. The agreement aims to enhance the access of more Brazilian products to the halal market, especially more value-added food products. The Arab Chamber and Apex-Brazil will implement the "Halal from Brazil" project, to raise the volume of the sector's exports at the international level.

The agreement aims to bring the value of investments aimed at diversifying exports to about $2.84 million over a period of 30 months. These investments include providing financial support to Brazilian food companies seeking to obtain halal certification for their products, which mainly

The “Boston Consulting Group” has forecast that the GCC’s “Total Digital Banks” will account for more than $2 trillion of the region’s financial services market by 2030, a compound annual growth rate of 53.4 percent.

The group explained in its report the vital and continuous role of these completely digital banks in providing the necessary financing to consumers, societies and the economies of countries as a whole. Revealing that the features that contributed to its success include digital services, mobile services, pioneering use experiences, cloud platforms with their standard structures, a culture characterized by flexibility and responsiveness, and brand development in line with the emotional intelligence of users.

The report showed that the GCC countries have some of the highest rates of connectivity in the world, with more than 90 percent of their population relying on internet services. A rate that significantly exceeds the global average of 51.4 percent. 5G services are expected to be available to two-thirds of the region's population by 2026.
